

Plant Features

Plants need light to be **healthy**.
Plants need water and **nutrients** too.

Plants have lots of different parts.
The parts can be called **features**.

Plant **features** have **important** jobs.

Here is a plant.

The plant has roots.

The plant has leaves.

The plant has a stem.

Let's find out about their jobs.

Roots

Plants have roots.
Roots take water and food from the soil.

Roots help the plant to get **nutrients**.
Roots help the plant to stand tall in the ground.

Leaves

Plants have leaves.
Leaves help to make food for the plant.
Leaves make food with the sun in a special **process**.

Leaves can be different sizes.

Leaves can be different shapes.

Leaves can be different colours.

Stems

Plants have stems.
Stems carry water and **minerals**.
They are **transported** to different parts of the plant.

The parts of a plant work **together** as a team.
They help to keep the plant alive.

1. What does a plant need to be healthy?
2. Name three parts of a plant?
3. Can you describe one job of the roots?
4. Do all leaves look the same?
5. What do you think might happen if one part of the plant stopped doing
it's job?
6. Why do you think the stem has the job of carrying water to different parts
of the plant?
7. Can you find one of the headings?
8. What is the job of a heading?
