

Gypsy Paper Flowers

You will need:

tissue paper

pipe cleaners

stapler (optional)

Instructions

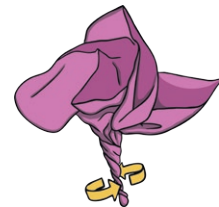

1. Take a square piece of tissue paper. Lie it flat.
2. Fold the paper in half but don't crease it.
3. Pinch the middle of the tissue paper and twist it round and round to form a 'stem'.
4. Keep twisting until there is a thin twisted end and a larger puffy end.
5. The twisted stem can be stapled, but this is optional.
6. Loop a pipe cleaner around the tissue stem.
7. Twist the pipe cleaner around the stem.
8. Enjoy your finished flower. Make more to fill a vase or make a bouquet!
