

NED'S SIX TRIX™

Scan the QR code to visit NED's Yo-Yo Channel (www.NEDKids.com), where you can watch step-by-step instruction videos and learn 30 more tricks!

Is your string too long?

1. Measure the String

Let the string out and set the yo-yo on the ground.

Pinch the string at your elbow and let the top part drop. Slide your other finger down two inches.

2. Make a Solid Loop

Tie a new knot by wrapping the string around your fingernail and pinching it with your thumb, just like tying a balloon. Slide it off your finger.

Slip the end underneath and pull it through to form a penny-sized loop.

Pull the knot tight and cut off the extra string.

3. Make a Slip Loop

This loop will fit any size finger, so the yo-yo doesn't fall off your hand.

The Specialty yos need five wraps around the axle to do the first three tricks (See back)
Super Spinner yos need to be thrown 'softly' to do these 3 tricks.

1 Gravity Gripper

1. Place the yo-yo in your hand with your palm up. Make sure the string wraps over the top of your yo-yo.

2. Make a muscle, curl your wrist and fling your arm straight out in front of you.

3. Release the yo-yo with a hard downward throw. Turn your palm over, and catch the yo-yo. **Good job!**

NED TIP

Is your yo-yo not coming up, but ends up spinning on its side? Line your shoulder, elbow and wrist straight out in front of you before your hard downward throw.

2 Flip Flop

1. Release the yo-yo downward, like you would with the Gravity Gripper.

2. As the yo-yo comes up, direct it over your hand and back toward the floor.

3. As the yo-yo flops back down let it do a second Gravity Gripper.

Congratulations! You've just done the Flip-Flop!

3 Forward Pass

1. Start with the yo-yo in your palm like you would for a Gravity Gripper. Now let your arms hang to your side, and draw your yo-yo hand back... ready to swing it quickly forward.

2. Let go of your yo-yo while it's behind you, and at the same instant, thrust your arm and hand forward in a swinging motion, leading with the back of your hand.

3. As the yo-yo comes back, turn your palm up to catch it. Nice job on the Forward Pass!

Remove wraps from the Classic Yo so there is just 1 left for tricks 4-6 (see below).

Always keep 3 wraps on the Super Spinner Yos.

4

Spinner

SLEEPER TRICK

1. Start this trick just like the Gravity Gripper, but gently stop your hand as the yo-yo reaches the end of the string. If done correctly, the yo-yo will spin or "sleep."

2. Turn your hand over (palm down) and give the string a tug. If there is still enough spin, the yo-yo will climb back up the string right into your hand.

The harder you throw your yo-yo down the longer it will spin AND the looser the string must be.

YO-YO WON'T STAY & SPIN?

Your string is too "tight." Look down at your yo-yo, and turn it counterclockwise, like the hands of a clock moving

backward. Now try it...

If your Super Spinner yo won't spin, use a harder overhand throw.

YO-YO WON'T COME UP?

Your string is too "loose." Look down at your yo-yo and turn it clockwise. Or, simply let the yo hang down and it will naturally tighten. Now try it...

5

Walk the Dog

SLEEPER TRICK

1. Start by throwing a good Spinner. As the yo-yo swings forward, lightly let it touch down on the floor.

2. Let the yo-yo "walk" in front of you.

3. Before it runs out of spin give the string a small tug so the yo-yo will return to your hand.

A hard floor surface - wood, gym or kitchen - works best for "walking your dog!"

6

Rock the Baby

SLEEPER TRICK

1. After throwing a good Spinner, grab the string a little above the middle with your free hand.

2. Bend the string down with your yo-yo hand, and pinch the string about 5 inches (13 cm) above your yo-yo.

3. Now swing the triangle down between you and your yo-yo and bring it into place, forming the cradle.

Try the trick a few times before adding the spin.

HOW TO WIND THE STRING on the Specialty Yos

1. Make the first wrap over one finger.

2. Continue to wrap string around the axle, to the side of your finger, 2-3 times.

3. Remove finger and gently continue wrapping until wound.

4. The finger loop will disappear when you throw the yo-yo down!

HOW TO ADD or REMOVE WRAPS

1. Pinch the string about 3 inches (7cm) above your yo.

2. As you look down at your yo-yo, spin it counter-clockwise until the strands of the string split apart

3. TO REMOVE WRAPS: Take off one wrap at a time until there is only 1 wrap left around the axle.

TO ADD WRAPS:

Add one wrap at a time until there are 3 wraps (Classic Yo) or 5 wraps (Specialty Yos) around the axle.

4. Let go of the pinched string, and the yo-yo will spin, returning the string to its natural position.
