Pupil premium strategy statement

This statement details our school's use of pupil premium for the 2023 to 2024 academic year) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

School overview

Detail	Data
School name	Tudor Primary
Number of pupils in school	443
Proportion (%) of pupil premium eligible pupils	23.9% (N-Y6) (106 children)
Academic year/years that our current pupil premium strategy plan covers	2023-2025
Date this statement was published	Autumn 2023
Date on which it will be reviewed	Summer 2024
Statement authorised by	Headteacher/ PPG Governor
Pupil premium leads	Rob Weightman (HT)
	Katie Reading (INCo)
Lead Governor for PPG	Jenny Heath (PPG Gov)

Funding overview

Detail	Amount
Pupil premium funding allocation this academic year	£ 137115 (Reception- Year 6)
Pupil premium funding carried forward from previous years (enter £0 if not applicable)	£ 0
Total budget for this academic year	£ 137115 (Reception- Year 6)
If your school is an academy in a trust that pools this funding, state the amount available to your school this academic year	

Part A: Pupil premium strategy plan

Statement of intent

Tudor Primary's strategy plan is responsive to the needs of the school, whether the investment is more bespoke for individuals/ families/ groups or in support of whole school aims. We think creatively, pro-actively and responsibly to do all that we can to maximise the social and educational development of those children who qualify for such additional funding as well as ensure the children and families feel fully part of a school that is central to the community.

As a school we must be accountable in our commitment to 'diminishing the differences' in the attainment and progress of these children when compared to all of our children at Tudor as well as children nationally. We are responsive to the needs of our school community. As well as knowing and understanding the children that start their primary school experience at Tudor, we must be able to support the high percentage of children that move into our school via in-year admissions, often from schools within the local area.

The school closures of 2020 and 2021 were also impactful on our most vulnerable families. Whilst we were determined to remain open to as many children as possible and our remote learning offer was well received, a key part of our PPG strategy is to ensure that children are given high quality and sustainable catch up opportunities that are delivered outside of the normal school day. We aim for all our pupils to receive a broad and balanced curriculum and by increasing opportunities outside of the normal school day, all children are able to take a full part in what schools offers. A number of focus year groups are able to benefit from daily additional learning opportunities that are provided before school. This increases the access to educational support by nearly 20%. With a high focus on PPG children, they are proven to raise confidence as well as attainment/ progress. Our own research also highlighted the enhanced impact of interventions/ supports being more effective (and efficient) when delivered by members of the Tudor teaching team.

Pupil premium remains a high focus as part of our school evaluation activities and every member of staff is aware of how we have a duty to further enhance our delivery and provision for those children (and families) who receive additional funding.

At Tudor we value the rich diversity of backgrounds and experiences which our children bring and seek to eliminate achievement gaps that might arise from any form of disadvantage. In order to accomplish this, the 'Tudor Toolkit' for PPG is our substantial raft of approaches that we continue to develop and offer to our school community. The 'Tudor Toolkit' (further detail is included later in this strategy document) contains the following (and more):

Foci:

- Tailored interventions for children who are working below, but within reach of, age related expectations, as well as those with special educational needs
- Enhanced curriculum provision including Forest School/ wider opportunities
- Daily breakfast and extra-care opportunities/ home collections for children each day
- Teaching assistants who offer support for children to meet age related expectations and to challenge more able learners
- Classes/ cohorts with higher % PPG children have increased TA capacity
- Curriculum innovation and investment in technology/ resources
- Effective and efficient access to mental health services/ support
- Dedicated learning support for children with higher levels of need
- Family and pupil support workers to enable all our families to thrive
- Counselling services (including school based pastoral support TA) for children with higher levels of emotional needs
- Additional support given to children learning English as an additional language to ensure that they are quickly able to access the curriculum as well as their peers
- A wide range of extra-curricular activities, which are free of charge (or subsidised) to all pupils.
- Subsidies for school outings and workshops to make them accessible for all
- Bespoke family support (in the home) including home repairs
- A school uniform subsidy, so that children of families on low incomes are not easily identified, or their self-esteem diminished, by their appearance.

Our ultimate objective for all our pupils is that every child is able to become a confident learner who can flourish independently as well as working in a group. Whilst there have not been official/standardised assessment figures due to the impact of school closures on assessment, our own analysis evidences high impact of our approach. Prior to the complete transformation of our approach in 2016, the outcomes for our vulnerable pupils did not evidence the impact of additional funding. Since that period, we have been not only been just very proud of the academic advancement of our vulnerable leaners, but

also how we have endeavoured to meet the social and emotional needs of our children and families.

As evidenced by monitoring from county advisors, Tudor 'offers a range of clubs, trips, visits and experiences to bring a breadth of experience

and opportunity into the lives of all children, especially those who might not otherwise get the chance. The staff have a comprehensive knowledge of the children they work with which enables the school to provide highly individual care and support beyond the classroom. This ethos was demonstrated by all staff. This attention to detail beyond their classroom experience ensures pupils feel valued and looked after.'

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Reduce gaps in writing attainment by supporting development of spoken language/vocabulary and enable PPG children to raise standards in writing outcomes for children. This is high focus in all year groups. Assessments, observations, and discussions with pupils suggest disadvantaged pupils generally have greater difficulties with writing than their peers. This negatively impacts their development as independent writers.
2	Improve parental engagement further so that children and families are able to take enhanced role in school life.
3	Continue to raise attendance of PPG children so that they have a full experience of education and provision at Tudor.
4	Ensure that ALL children are able to be fully involved with a wide range of activities at Tudor and they are able to make good progress-socially as well as academically.
5	Support children who have multiple presenting needs including high focus on SEMH.

Intended outcomes

This explains the outcomes we are aiming for by the end of our current strategy plan, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
Reduce gaps in writing attainment by supporting development of spoken language/vocabulary	-Progress of children with PPG in writing is at least that of those who are non-PPG

and enable PPG children to raise standards in writing outcomes for children.	-PPG children are able to be more independent in writing and are able to write confidently in a range of subjects -% of PPG children to achieve greater depth in writing is higher than national average
Improve parental engagement further so that children and families are able to take enhanced role in school life.	-Evidence of partnership between PPG families and school -PPG families access additional in school learning/ extra care opportunities for their children -Strong partnership and support from home is impactful on children's learning -Children become more independent and become more actively engaged in learning in school (and develop/enhance learning when at home)
Continue to raise attendance of PPG children so that they have a full experience of education and provision at Tudor.	-PPG children to achieve higher that national PPG attendance. Be within 1% of non-PPG. -PPG children respond pro-actively to attendance strategies and work in partnership with the school
Ensure that ALL children are able to be fully involved with a wide range of activities at Tudor and they are able to make good progress- socially as well as academically.	-PPG children (and families) are able to benefit from our ongoing (sustainable) PPG toolkit of supports that are in placePPG families recognise Tudor Primary as a key part of their community and benefit from the raft of supports that are in placePPG families are confident to approach Tudor Primary when they require support and/or are open to the enhanced partnership that is on offer.
Support children who have multiple presenting needs including high focus on SEMH.	-SEND children make good progress- academically and socially -Support is provided effectively for children that present increased levels of anxiety at schoolFamilies of children with SEND feel supported at Tudor and feedback is positiveChildren with SEND are able to comment positively about how they are supported at Tudor.

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) this academic year to address the challenges listed above.

Teaching (for example, CPD, recruitment and retention)

Budgeted cost: £ 25000

Activity	Evidence that supports this approach	Challenge number(s) addressed
Increase percentage of children achieving expected standard in writing: -Staff training on the effective organisation of the teaching of writing (including the sharing of	Whilst feedback is positive in respect of moderation activities with other schools and writing standards are improving across the school, we will continue to with training and guidance to embed high expectations in writing across the curriculum.	1

school strategies including use of mighty writer)		
-Increase capacity of adult support with modelling of high-quality writing in class	There IS good evidence of high-quality writing and attendance in regular moderation with other schools evidences this too but children need more exposure to bespoke support/ sharing of expectations.	1,5
-Use of moderation (inter-school) and assessment activities to identify key gaps and develop approaches to teaching high quality writing for all	Moderation is able to evidence the impact of our school strategies as well as develop understanding of standards in school and in comparison with other settings. Next steps and further refinements are efficiently found and are able to be actioned in additional staff training.	1,5

Targeted academic support (for example, tutoring, one-to-one support structured interventions)

Budgeted cost: £ 30000

Activity	Evidence that supports this approach	Challenge number(s) addressed
PPG pupils are supported with effective approaches for writing development	Provision has now improved in in key stage 1 and there has been enhanced use of supports for independent writing. Impact of this in LKS2 has also been pleasing.	1
-High focus on adult support of writing including bespoke modelling and high capacity of working WITH children during writing tasks	Feedback from children (including pupil voice) evidence that children enjoy this support. Highly evident that children believe that this is the most impactful support Tudor offers in respect of writing development.	
-High focus on development of writing opps/ mark making in EYFS into year 1	Standards of writing have improved in year 1 and KS! Staff have recognised clear improvement with content and structure of writing with younger children. Independence has improved significantly.	
Increase the confidence/ outcomes in writing of children with PPG:	Whilst the percentage of PPG children in the school is over 20%, this investment will ensure all classes with PPG children have TA support throughout the day. In addition, year groups with a higher % of PPG children also benefit from additional support.	1,2,5
Enhance the capacity of adult support in schoolextend provision and provide more support in classes with higher levels of PPG need.	Same approach had high impact last year- continue this financial commitment and investment in improving writing outcomes	
Increase support of INCo in the management of the delivery of strategy for PPG.	INCo remains non-class based and is able to take more time to lead/ monitor/ evaluate the success of PPG children.	

PPG Children in UKS2 to achieve end of year expectations:		1,2,3,4,5
PPG children to have focused reading/ writing support (additional staff capacity to provide high quality/ intensive learning/ engagement with classes including PPG children)	Following sustained improvement with this strategy, we will continue to provide increased capacity for the PPG children in KS2. Additional TA support able to engage pro-actively with the children and families. Reading support can be given as well as writing intervention.	
Year 5 and Year 6 children (PPG focus) to have daily additional breakfast support from 8am-8.45 to enhance confidence/ support with pre-teaching and tutoring oops.	This strategy has proved highly successful in year during previous years. Review situation as part of PPM process to consider provision of additional interventions.	
Additional targeted daily learning opportunities out of school hours for year groups when required.	Interventions in year 1 and year 2 have been successful during previous years. For younger year groups, shorter time frames have been advantageous- eg 1 term/ half term. Review each situation as part of PPM process to consider provision of additional interventions.	

Wider strategies (for example, related to attendance, behaviour, wellbeing)

Budgeted cost: £ 35000

Activity	Evidence that supports this approach	Challenge number(s) addressed
Tudor to offer access to wellbeing and pastoral support TA (PSTA)	The pastoral support in place at Tudor ensures that children build their self-esteem, social skills and ability to cope with stress, which in turn enables them to fully participate in their learning and to feel safe and valued in their school environment. PSTA works alongside all staff to provide an additional layer of support for the children and develops positive relationships with them in order to provide appropriate support. She also liaises with external agencies, if required, to enable children to receive the full provision they need. Children are provided with a safe space to be able to share their thoughts and feelings. They may receive one-to-one, weekly, fortnightly or ad-hoc sessions depending on what additional support is needed. PSTA is also able to support the children's mental health and wellbeing by helping them deal with their worries and problems. Families are supported with any concerns they may have regarding their child's mental wellbeing which helps to promote and develop a positive family/school relationship. Teachers are supported as they are able to focus on supporting the children academically to ensure they make good progress. Feedback is	2,3,4,5

	given to the class teacher to ensure that the teaching team are able to follow up any class-based issues and provide more tailored classroom support. TA's can be utilized to support teachers more effectively. In addition, PSTA helps lead support groups and transition groups (eg for Year 6 children). For children that require regular (or occasional) support during lunchtimes, there is a Sunshine Club that provides them with a safe and positive space, as well as the opportunity to develop friendship groups and social skills.	
PPG children to continue to benefit from range of additional measures and supports (with high focus on attendance/ behaviour	Tudor continues to offer a wide range of additional activities to support the children with PPG at Tudor. The school has received an audit/ review of our approaches and there has been clear/evidenced impact.	Main focus- 2,3,4,5
for learning and wellbeing) that have been put in place in recent times.	To ensure consistency (as well as sustainability) of these additional measures, they are listed as part of our overall offer.	
These measures (often bespoke) are listed within our PPG dashboard/ toolkit and they can swiftly be delivered/ adapted when the need arises.	This toolkit is managed by the INCo and it is monitored closely for impact. The 'range' of approaches are recognised by the staff team and they are able to access/ use the ongoing strategies when appropriate. By having clear analysis/ monitoring of these approaches, we are able to keep refining our toolkit to ensure that children do benefit from them and there is an equity of access for different year groups.	

Total budgeted cost: £ 100000

Part B: Review of outcomes in the previous academic years

Pupil premium strategy outcomes

Review of Progress/ outcomes for PPG pupils 2022-2023

Our management of the PPG strategy continues to effective. It has also been used as an exemplar with other schools when evaluating how well the school supports the PPG children. The school also received a county advisory visit in Spring 2023 with a focus on PPG. Headlines from the report include:

'Tudor supports attendance, self-confidence and physical wellbeing of pupils'

'Pupils felt included and fully involved, with no sense that activities were out of their reach or restricted to only certain pupils'

'The experiences made them better learners and more resilient'

'Tudor offers a range of clubs, trips, visits and experiences to bring a breadth of experience and opportunity into the lives of all children, especially those who might not otherwise get the chance'

'Staff have a comprehensive knowledge of the children they work with which enables the school to provide highly individual care and support beyond the classroom'

'(Tudor's) ethos was demonstrated by all staff'

'The team demonstrated warmth and support for pupils arriving and leaving, making sure pupils felt secure in the knowledge they are known and belong'

'Their respect for the adults in the school and to each other reflected the level of care and individual provision they have received'

'Staff...were observed giving well-structured, in the moment feedback, to provide personalised provision, moving learning forward'

'Tudor work closely with parents to boost parental engagement, aware that some parents may have had difficult experiences in school themselves'

'The leadership team place a strong emphasis on mental health and wellbeing, in the knowledge that many of the most vulnerable pupils at Tudor are managing some complex circumstances'

'Pupils said that they felt happy and safe, and that they enjoyed coming to school'

'Pupils' books and end of key stage assessments reflected the high-quality range of support and opportunities available to all children and their parents'

Our approaches to the support of our vulnerable learners has been in place for a sustained period of time now and we continue to refine and improve our techniques. Interventions that are more efficient as well as effective are prioritised and we ensure that they are rigorously delivered. High quality examples include the provision of approx. 20% more learning time per week for those targeted children. This provision is delivered in the form of breakfast (and sometimes after school) learning opportunities. For those children who initially do not take advantage of such provision, the school is able to swiftly respond to the needs of different families to ensure that interventions can be given. At times this even included providing

additional interventions (including tutoring) WITHIN the existing school timetable. Some families have not been able to support using additional time in school and we have adapted our approaches when needed.

2021/2022 Attendance- Pupil attendance is 95% (national 93.7%)

2021/2022Ever 6 free school meals- 91.6% (national 91.6%)

2021/2022 Persistent absentee rate- ************************* (national 17.2%)

2022/2023 Attendance- 94.6% (national 94.0%)

2022/2023 Ever 6 free school meals- 91.0% (national ****%)

2022/2023 Persistent absentee rate- ************* (national 17.2%)

Alongside the school's PPG governor, we continue to utilise a PPG provision tracker which is able to clearly highlight the provision in the school. EACH child is monitored and it shares the range of supports that are in place for that child. It also helps identify the level of impact for that child. PPG provision continues to be a key focus in ALL PPM meetings and teachers can share those provisions/ adjustments that are having the biggest impact- socially and academically.

Our curriculum is a strength at Tudor- the children have FULL access to a broad and balanced curriculum and, as previously shared, the main approach for providing additional support is using time in addition to the normal day. This ensures that the children have access to the full curricular spectrum and they can be extended/ consolidated in relation to agreed foci. The morning breakfast provision is formulated alongside the main classteachers and this ensures that the input supports the main approaches in class. As noted within the autumn HIP report: (Outcomes) reflect their impact as well as their long standing success in supporting pupil welfare and aspirations

Identify pupils who are vulnerable to falling behind and track progress

Due to the high focus that we place on PPG, we are able to identify where adjustments need to be made. A good range of data is able to evidence the impact of our approaches. This includes how our % of PPG children achieving ARE increases the more time they spend at Tudor. The table shows the * of children meeting ARE expectations from Y1 to Y6:

For progress, children who are PPG are enabled to make the same rates of progress as their peers. The following tables show how pupils from Aut 1 to Sum 2 make rates of progress compared to the 'expected' progress rate of 5 points during the academic year of 20222023:

Reception:
