

Treat others the
way you would
want to be
treated.

Welcome to our 'Values' assembly

*A value is a principle
that guides our
thinking and
behaviour*

This month we will be exploring the value of

RESPONSIBILITY

You are always responsible for
your actions, no matter how
you feel...

Remember that!

RESPONSIBILITY

Taking care of your duties

Answering for your actions

Different Kinds of Responsibility

Moral Responsibility (to other people, animals and the Earth)

Legal Responsibility (to the laws of the land)

Family Responsibility (to your parents and other family members)

Community Responsibility (to your local community)

Responsibility to Customs, Traditions, Beliefs and Rules

Personal Responsibility (to yourself!)

Our Focus

♥ This assembly is focusing on our

Moral Responsibility

(to the Earth and animals that live on it)

Earth

- ♥ Earth is a beautiful planet
- ♥ It gives us what we need: Food, Shelter, Air and Water

How do we treat the Earth?

Water pollution is when chemicals or substances contaminate the water. They get into water mainly by human causes. We rely on water for ourselves (drinking) and for animals. Polluted water kills people and animals.

What can we do?

- ♥ Try to walk/ cycle more to school
- ♥ Only travel in the car when you need to

Q: How did you travel to school today? How could you travel tomorrow?

How do we treat the Earth?

We sometimes waste water, electricity, clothes, items and food.

(e.g. some people leave the taps or lights on).

What can we do?

- ♥ Only use what we need
- ♥ Recycle unused paper etc.
- ♥ Turn the lights and water off when not using them
- ♥ Energy monitor (check lights/ computer switched off)

Can you think of anything else?

How do we treat the Earth?

Due to laziness, people throw litter.

Who's responsibility is it?

It's not
someone else's
responsibility
to pick up our
litter

**IT'S OUR
RESPONSIBILITY**

Please! Put your
litter in the bin

Treat others the
way you would
want to be
treated.
